

CABINET VISION

CABINET VISION Design

The ultimate custom showroom design tool

CABINET VISION Design supports sales and profitability by creating professional, accurate designs, renderings and pricing estimates. Its interface is easy to use for both simple and complex projects, enabling designers to give customers a true representation of the look and cost of the finished product. CABINET VISION Design comes in three possible configurations, cabinets, closets, or both and lets you draw on a smart catalogue of products and objects so you can consistently design to manufacturers' standards.

Key Features

- Order entry, floor plan, elevations, 3D and assembly views
- Straight, angled, curved, cathedral, vaulted and peninsula walls
- Import and export orders (CSV, ORD, ORDx)
- Job costing
- Full rendering (photorealistic, cartoon, hand drawn and hatch)
- Basic 2D CAD
- Choose between cabinets or closets, or both
