

xReporting

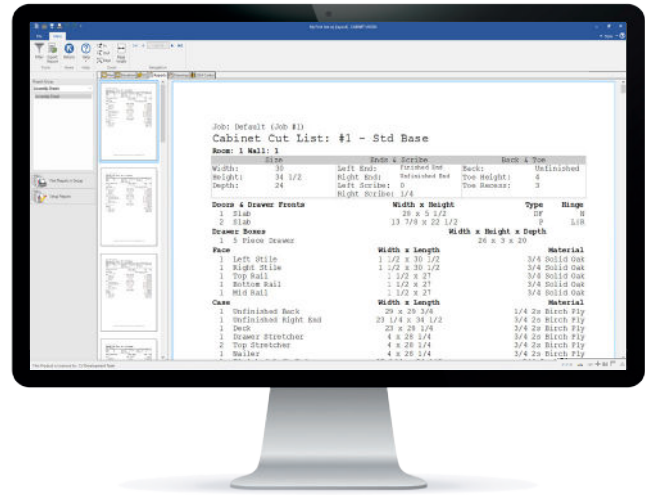

Unlimited reporting capability and a custom report editor

xReporting gives you access to over 150 predefined reports as well as a custom report editor, making it easy to share clear, concise information with the relevant departments throughout your business. The xReporting multiplier saves time by allowing you to create report groups containing multiple reports that can be printed with a single click. And because it is integrated with CABINET VISION it automatically updates reports when changes are made to the job design or project specifications.

Key Features

- Over 150 predefined reports
- User defined report groups
- Custom report editor
- Filter report data
- Multiple text file type exports
- User definable assembly sheets
- User definable elevation sheets
- User definable part sheets
